September 10, 2018

To Our Valued Customers and Partners,

We are excited to announce that Atlantic Equipment Specialists, Inc. has changed its name to **Atlantic Culinary Environments, Inc.** Along with a re-branding initiative, these changes provide us the opportunity to more accurately refresh and reflect the ideals that started our company. Under the same leadership since 1985, we continue to move **Atlantic Culinary Environments, Inc.** forward in the same direction we began, to be the **best** at what we do... serving our customers.

Starting as a distributor and installer of commercial food service equipment, we used our talent and resources to become a custom stainless-steel fabricator. By expanding our facility with a custom millwork shop, we have enhanced our product line to become a more comprehensive and complete service provider. Over time we transformed from a multi-product fabricator to a true Design Build Partner.

We have worked diligently to recruit, develop and train what we believe is some of the best talent in our industry. Because of this, we are providing high-quality products and services, valuable operational insight and true design expertise to customers. Our on-staff kitchen design team and interior designers work together to create inspirational and aesthetically pleasing environments that provide efficient and effective design solutions.

Simply put, **Atlantic Culinary Environments, Inc.** is a team of dedicated employees with the pride and commitment to consistently meet or exceed customer expectations at every turn.

Atlantic is proud of the direction we are taking and are thankful to you for the support and meaningful relationships we have developed together. As we move forward in our re-branding initiative, including a redesigned website that is expected to launch later this year, we will be certain to keep you informed along the way.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig Roadarmel".

Craig Roadarmel
President
